- NEW!** • the integrally moulded outlet recess has been deep-drawn
- NEW!** • improved outlet for better flow
- NEW!** • container can be emptied completely – no residue remains
- NEW!** • particularly easy-to-clean

Optimum cleaning geometry, complete emptying, non-permeation or unbeatable durability? Absolutely safe and reliable, wide range of sizes, wearless or re-usable? The UCON LNZ foodstuff container made of stainless steel fulfils all your requirements and reflects our unerring striving for quality and perfection. This means we can guarantee highest standards of safety and durability for all our products. Your requirements and our pioneering spirit combine to create customised, innovative products made of stainless steel.

Come and see us to find out more!

**UCON**
CONTAINERSYSTEME

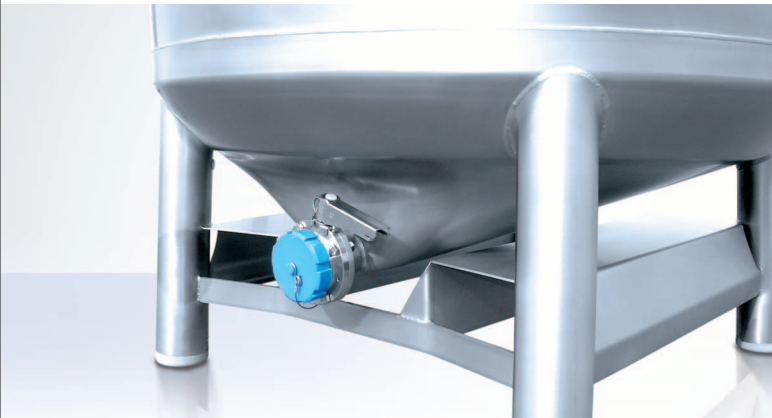

GROCERIES | FOODSTUFFS | LUXURYFOODS

View of the deep-drawn outlet recess which has no welded joints and is therefore especially flow-friendly.

Under-surface and outlet recess have been designed in one piece. This avoids the possibility of deposits forming in welded joints.

The especially flow-friendly form permits complete emptying of the foodstuffs content and makes cleaning particularly easy.

Particularly user-friendly, safe and leak-proof filling method. Compatibility with all common connections is guaranteed.

IBC for thick, slow-flowing liquids.

UCON. Type LNZ. Reusable because it's stainless steel.

Field of application

Transportation and storage of raw materials and products of the foodstuffs, pharmaceuticals, coatings, plastics and chemical industry

Content

500-1.000 litres

Handling

- can be transported by all common commercial industrial trucks

Advantages

- circumferential stacking ring for stacked stocking of containers (3-deep when empty, 2-deep when filled)
- safe forklift transport (fork tunnel)
- complete emptying of container due to deep-drawn, base with virtually no dead storage capacity and outlet recess and directly flange-mounted outlet gate valve
- weight-optimised base-frame due to tubular design
- different outlet variations

Certifications

- UN certification
- CE identification

Type LNZ	Tank diameter mm	Height mm	Weight kg
500	1000	1170	95
800	1000	1540	110
1000	1000	1810	120

Further basic sizes and content volumes on request.
